September 8, 2017

Dear Member of the Mullen High School Community,

Last week, I announced our Principal, Janell Kloosterman, accepted a position as Director of Leadership Formation for our Lasallian District of San Francisco New Orleans. Once again, on behalf of the Mullen community, I want to express my profound gratitude for Janell's many contributions to Mullen High School. Janell will continue to lead Mullen in her role as Principal and Chief Academic Officer until she assumes her new position in the summer of 2018.

Recognizing the magnitude of the task to find the next principal of Mullen High School, the Board of Trustees authorized me to engage Catholic School Management (CSM), a division of Christian Brothers Services, to facilitate a national search. A Search Committee of fourteen will be formed with representatives from the Board of Trustees, administration, athletics, faculty, alumni, parents, students, higher education and donors.

Jennifer Kensel, CSM Senior Consultant, and Dr. Lois J. Cavucci, Director of the CSM Search Division, will be on campus September 20th to initiate the search process. We will finalize the job description and search timeline at the September meeting with CSM.

The posting for the principal position will be open throughout the month of October. All applications will be received by CSM. After Thanksgiving, we will schedule the first round of candidate interviews, to be followed by a second round of interviews in December. My goal is to announce the selection of our next principal shortly thereafter.

During the search process, CSM will evaluate candidate credentials to closely align with our job description, Lasallian mission and pedagogy. I will work closely with the search committee and CSM. It is my responsibility and goal to select the best principal to lead Mullen High School for years to come.

Thank you as always for your support of Mullen High School and blessings to you and your families at start of the new school year.

Respectfully,

Carl Unrein
President and CEO
